

Illness, Hygiene, & Physical Distancing Expectations for JCamp Plus Families

The only way that JCamp Plus can happen safely can happen safely is if everyone acts as if their hygiene and physical distancing outside of JCamp Plus directly affects the health of every child, staff member, and the people they live with—because they do. **As a condition of enrollment, families must agree to all of our illness, hygiene, and physical distancing expectations without exception. Failure to meet these expectations is grounds for immediate disenrollment.**

1. No attending of large gatherings, birthday parties, or social events.
2. Minimize time outside of home like trips to the store.
3. Wash hands thoroughly when entering and leaving home and throughout the day.
4. Wear a mask when outside the home.
5. Avoid touching your face.
6. Avoid travel. If anyone in the household travels out-of-state or travels anywhere by plane, boat, or train, your child must remain home for 12 days after returning.
7. Monitor yourself and those in your home for signs of illness. If you or your child is sick, stay home and keep your child home. This is not the moment to ignore symptoms.
8. Communicate openly and immediately with WJCC about any illness or potential exposure. We pledge to protect privacy as much as is practical but we must know about any potential exposure or illness in order to protect everyone.
9. Stay off campus and if necessary seek medical care promptly if you have any symptoms of COVID-19:
 - Cough
 - Shortness of breath or difficulty breathing
 - Fever
 - Chills
 - Muscle pain
 - Sore throat
 - New loss of taste or smell
